

WE SERVE BELOW INDUSTRIES

1 Oil & Gas (Upstream, Midstream, Downstream)

Products used

- **OCTG** → drilling, casing, tubing (upstream)
- **Float equipment** → cementing operations
- **Valves** → wellheads, pipelines, refineries
- **Flanges** → pipe connections across facilities

Segments

- Exploration & drilling companies
- Refineries
- LNG terminals
- Pipeline operators

2 Petrochemical & Chemical Plants

Products used

- **Valves** → flow control, safety, isolation
- **Flanges** → corrosion-resistant piping systems

Applications

- Chemical processing
- Fertilizers
- Polymers & resins
- Specialty chemicals

3 Power Generation (Thermal, Nuclear, Hydro, Renewable support systems)

Products used

- **Valves** → steam, cooling water, fuel systems
- **Flanges** → high-pressure pipelines

Segments

- Thermal power plants
- Nuclear facilities
- Combined-cycle gas plants

4 Water & Wastewater Treatment

Products used

- **Valves** → flow regulation, isolation
- **Flanges** → water transmission pipelines

Customers

- Municipal corporations
- Industrial water treatment plants
- Desalination projects

5

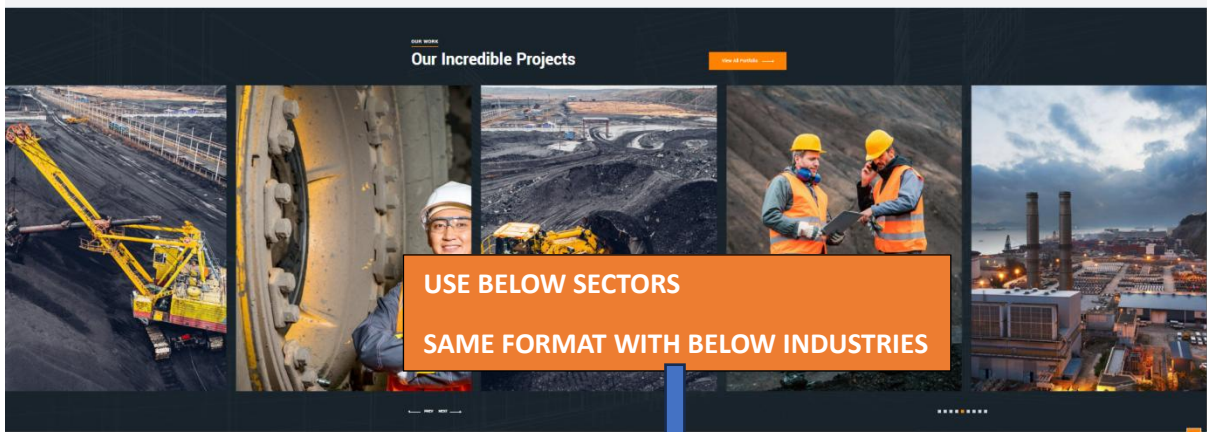

- **Marine & Shipbuilding**

Products used

- **Valves** → ballast, fuel, cooling systems
- **Flanges** → ship piping networks

Segments

- Shipyards
- Offshore vessels
- Port infrastructure
-

Oil & Gas (Upstream, Midstream, Downstream)

Petrochemical & Chemical Plants

Power Generation

Water & Wastewater Treatment

Marine & Shipbuilding

Mining & Metals

Construction & Infrastructure

Pharmaceuticals & Food Processing

USE ONLY COMPANY NAMES LETS SKIP PERSON NAMES.

“BEMT has consistently delivered high-quality engineering products that match global standards. Their attention to detail and timely support have made them our trusted partner for critical operations.” — *Operations Manager, Lohia corp ltd*

“We rely on BEMT for precision-engineered components, and they have never disappointed. The durability and performance of their products in tough field conditions are truly commendable.” — *Drilling Superintendent, United drill and tools ltd*

“The fact that these products are manufactured locally in India yet meet international benchmarks speaks volumes about BEMT’s capability. Their service responsiveness is unmatched.” — *Procurement Head, Flow more ltd*

“From design to delivery, BEMT has been exceptional. Their engineering expertise and commitment to quality have significantly improved our operational efficiency.” — *Project Engineer, Pt.c industries ltd*
